Cobble Paver

Old-World Charm in a Modern Paver

The old-world look of a Cobble paver is the perfect complement to structures with an old European or early American style. Cobble features a subtly textured top with soft edge details At over 3 inches thick; Cobble can is suitable for driveways and other high traffic areas as well as patios and walkways. Cobble has an open spacer joint design, making it ideal for use as a permeable paver in locations that require good drainage.

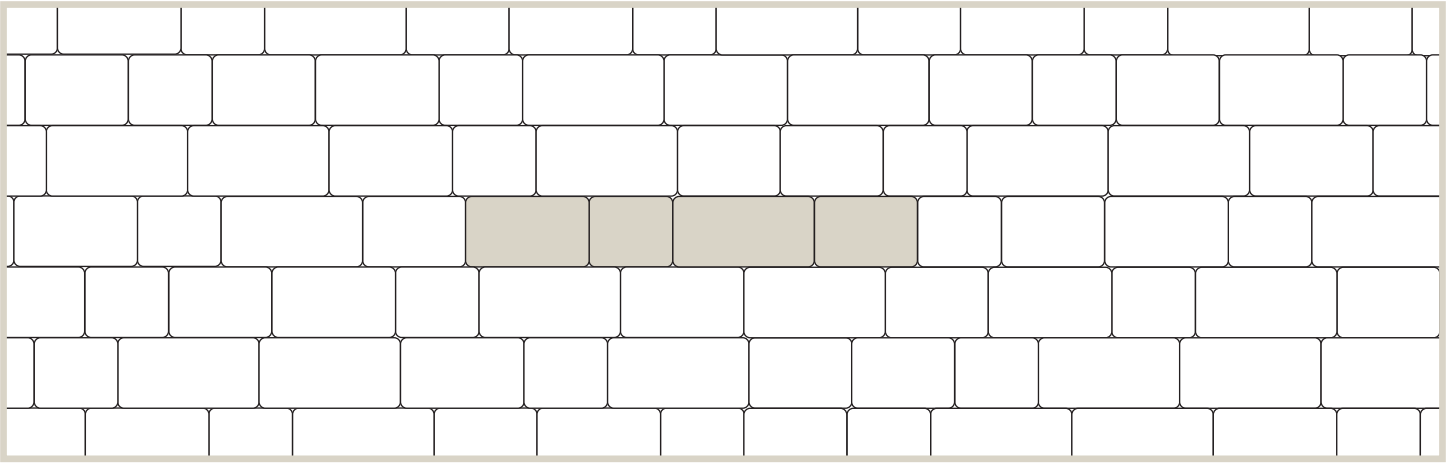
PATTERNS



Running Bond 1

INSTALLATION NOTES

This product is laid randomly in a running bond pattern. Barkman recommends the use of polymeric sand for commercial applications. A plate compactor should be used over the entire surface following installation with the use of a Paver Saver Mat. For more in depth installation guides for specific products, visit **BarkmanConcrete.com.**
